Conversion in English : a cognitive semantic approach ...

"Conversion, also called zero derivation, is a kind of word formation. It is the creation of a word of a new word class from an existing word of a different word class without any change in form; for example, the creation of the verb 'humble' from the adjective 'humble' or of the noun 'attempt' from the verb 'attempt'.

Dict.

Conversion disorder, or functional neurologic symptom disorder, is a diagnostic category used in some psychiatric classification systems. It is sometimes applied to patients who present with neurological symptoms, such as numbness, blindness, paralysis, or fits, which are not consistent with a well-established organic cause, which cause significant distress, and can be traced back to a psychological trigger. It is thought that these symptoms arise in response to stressful situations affecting a
