Once you find something you're interested in, click on the book title and you'll be taken to that book's specific page. You can choose to read chapters within your browser (easiest) or print pages out for later.

Messerschmitt Me 262 Aerei Della

After Willy Messerschmitt's death in 1978, the former Me 262 pilot Hans Guido Mutke claimed to have exceeded Mach 1 on 9 April 1945 in a Me 262 in a "straight-down" 90° dive. This claim relies solely on Mutke's memory of the incident, which recalls effects other Me 262 pilots observed below the speed of sound at high indicated airspeed, but with no altitude reading required to determine the speed.

Messerschmitt Me 262 - Wikipedia

Having undergone a tortuous trial period the Me 262 would enter service with fighter units: its intended task being to shoot down as many of the aircraft in the USAAF bomber streams as possible. Unfortunately for the Luftwaffe Adolf Hitler decided to intervene and insisted that the Me 262 become a bomber - a wonder weapon.
