The Rover 75 is an executive car that was produced by British car manufacturers Rover Group and later by MG Rover, under the Rover marque. The Rover 75 was available with front-wheel drive in either a saloon or estate body style and latterly, in long-wheelbase form and a rear-wheel drive, V8-engined specification. In 2001, an MG-branded

The clutch release bearing is lubricated by a splash-fed channel from the gearbox. If left for a long period standing, the oil can drain back from this channel. This is the root of the common problem selecting gear (particularly reverse) when the gearbox is cold. Don't worry, the oil will soon replenish itself in

# Read Free Rover 75 Manual Gearbox Problems

the channel.
