People in Glass Houses Jan 04 2021 The eighties were my formative years, and while other teenagers were gyrating to rock 'n' roll, we were praying for revival. We were taking communion, not cocaine. We treated virginity like a wedding present, not a cold sore. And why wouldn't we? We were told we could be, we already were, anything we wanted to be... We were armed and dangerous. Armed with the power of God and dangerous in the eyes of Satan. Tanya Levin grew up in the church that became Hillsong—the country's most ambitious, entrepreneurial and influential religious corporation. *People in Glass Houses* tells how a small Assemblies of God church in a suburban school hall became a multi-million dollar tax-free enterprise and a powerful force in Australia today. Opening up the world of Christian fundamentalism, this is a powerful, personal and at times very funny exploration of an all-singing, all-swaying mega church.

***Charismatic Christianity in Finland, Norway, and Sweden* Jan 16 2022**
This is open access under a CC BY 4.0 license The history of Charismatic Christianity in the Nordic countries reaches as far back as Pentecostalism itself. The bounds of these categories remain a topic of discussion, but Nordic countries have played a vital role in developing this rapidly spreading form of world-wide Christianity. Until now, research on global Charismatic Christianity has largely overlooked the region. This book addresses and analyzes its historical and contemporary trajectories in Finland, Norway, and Sweden. Through a selection of cases written by Nordic scholars from various disciplines, it demonstrates historical and contemporary diversity as well as interconnections between local, national, and global currents. Highlighting change and continuity, the anthology reveals new aspects of Charismatic Christianity.

Megachurch Accountability in Missions: Aug 23 2022 Megachurches are of relatively recent vintage. Their numerical strength invests them with social and financial power. To whom, if anyone, however, are megachurches accountable? What role do they play as innovators in missions? How have their enormous influence and financial strength been harnessed? What lessons can be learned? What course corrections ought to be made? Over the course of a week, the third meeting of the Korean Global Mission Leadership Forum (KGMLF), held in Korea in 2015, addressed these and related questions. Combining the insights of a rich mix of Korean and international megachurch leaders and scholars, *Megachurch Accountability in Missions: Korean and Global Case Studies* offers analysis, critique, and positive recommendations for future megachurch engagement in mission.

***The Spirit of Praise* Apr 18 2022** In *The Spirit of Praise*, Monique Ingalls and Amos Yong bring together a multidisciplinary, scholarly exploration of music and worship in global pentecostal-charismatic Christianity at the beginning of the twenty-first century. *The Spirit of Praise* contends that gaining a full understanding of this influential religious movement requires close listening to its songs and careful attention to its patterns of worship. The essays in this volume place ethnomusicological, theological, historical, and sociological perspectives into dialogue. By engaging with these disciplines and exploring themes of interconnection, interface, and identity within musical and ritual practices, the essays illuminate larger social processes such as globalization, sacralization, and secularization, as well as the role of religion in social and cultural change. Aside from the editors, the contributors are Peter Althouse, Will Boone, Mark Evans, Ryan R. Gladwin, Birgitta J. Johnson, Jean Ngoya Kidula, Miranda Klaver, Andrew Mall, Kimberly Jenkins Marshall, Andrew M. McCoy, Martijn Oosterbaan, Dave Perkins, Wen Reagan, Tanya Riches, Michael Webb, and Michael Wilkinson.

The Hillsong Movement Examined Apr 30 2023 This interdisciplinary volume brings together leading writers and thinkers to provide a critique of a broad range of topics related to Hillsong Church. Hillsong is one of the most influential, visible, and (in some circles) controversial religious organizations/movements of the past thirty years. Although it has received significant attention from both the academy and the popular press, the vast majority of the scholarship lacks the scope and nuance necessary to understand the complexity of the movement, or its implications for the social, cultural, political, spiritual, and religious milieus it inhabits. This volume begins to redress this by filling important gaps in knowledge as well as introducing different audiences to new perspectives. In doing so, it enriches our understanding of one of the most influential Christian organizations of the late 20th and early 21st centuries.

Anyone who wants to live a life of grace needs to navigate the world's gray lifestyle choices that may not be wrong, but could lead to sin. "The church has been plagued by two extremes when it comes to living a Christian lifestyle," says author Bradley Truman Noel. "On one side, we have the serious folks adorned with a really impressive frown, who remind us of all the do's and don'ts....On the other end of the spectrum are folks who play fast and loose with the rules. They typically don't spend too much time thinking about holiness, or wondering if their actions align with biblical teaching." Both sides, Bradley says, miss the power of God's grace in our lives. In *Tinder, Tattoos, and Tequila*, you will discover: How to determine what's sinful and what's permissible**

***Music, Branding and Consumer Culture in Church* Sep 23 2022 Starting as a single congregation in Australia, Hillsong Church now has campuses worldwide, releases worship music that sells millions of albums and its ministers regularly appear in mainstream media. So, how has a single church gained such international prominence? This book offers an ethnographic exploration of the ways in which music and marketing have been utilised in the pursuit and production of spiritual experience for members of Hillsong Church. An experience that has proven to be incredibly popular. The main theme of this book is that marketing, specifically branding, is not just a way to "sell" religion, but rather an integral part of spiritual experience in consumer society. Focussing on the London Hillsong church as a case study, the use of its own music in tandem with strong branding is shown to be a co- and re-productive method of organizing, patterning, and communicating information. The church provides the branded material and cultural context in which participants' sacred experience of self unfolds. However, this requires participants to "do the work" to properly understand, and ultimately embody, the values associated with the brand. This book raises important questions about the role of branding and music in forming modern sacred identities. As such, it will be of great interest to scholars of Religious Studies, Ethnomusicology and Media Studies.**

Transnational Religious Movements Oct 13 2021 This book studies the concepts and philosophies governing globalized faiths. Transnational Religious Movements is a convincing narrative of how global religions have moved beyond spirituality to become key players in the world of welfare, education, economics, politics, and international relations. It examines the major faiths of the world, viz., Christianity, Islam, Buddhism, and a sect. of Hinduism, to demonstrate transnational religious movements in the wake of globalization. The book focuses on the strategies and practices of six representative religious organizations that operate transnationally and helps us understand how they are formed, structured, and institutionalized in society, and how they operate. It dwells on how individuals, groups, media, and state as well as non-state actors come to terms with these organizations. World religions do not simply respond to globalization; they also shape and affect the future dynamics of globalization.

Religions as Brands Jul 22 2022 During the twentieth century, religion has gone on the market place. Churches and religious groups are forced to 'sell god' in order to be attractive to 'religious consumers'. More and more, religions are seen as 'brands' that have to be recognizable to their members and the general public. What does this do to religion? How do religious groups and believers react? What is the consequence for society as a whole? This book brings together some of the best international specialists from marketing, sociology and economics in order to answer these and similar questions. The interdisciplinary book treats new developments in three fields that have hitherto evolved rather independently: the commoditization of religion, the link between religion

and consumer behavior, and the economics of religion. By combining and cross-fertilizing these three fields, the book shows just what happens when religions become brands.

Church Schism & Corruption Nov 01 2020

Routledge International Handbook of Religion in Global Society Apr 06 2021 Like any other subject, the study of religion is a child of its time. Shaped and forged over the course of the twentieth century, it has reflected the interests and political situation of the world at the time. As the twenty-first century unfolds, it is undergoing a major transition along with religion itself. This volume showcases new work and new approaches to religion which work across boundaries of religious tradition, academic discipline and region. The influence of globalizing processes has been evident in social and cultural networking by way of new media like the internet, in the extensive power of global capitalism and in the increasing influence of international bodies and legal instruments. Religion has been changing and adapting too. This handbook offers fresh insights on the dynamic reality of religion in global societies today by underscoring transformations in eight key areas: Market and Branding; Contemporary Ethics and Virtues; Intimate Identities; Transnational Movements; Diasporic Communities; Responses to Diversity; National Tensions; and Reflections on 'Religion'. These themes demonstrate the handbook's new topics and approaches that move beyond existing agendas. Bringing together scholars of all ages and stages of career from around the world, the handbook showcases the dynamism of religion in global societies. It is an accessible introduction to new ways of approaching the study of religion practically, theoretically and geographically.

Current Trajectories in Global Pentecostalism: Culture, Social Engagement, and Change Sep 11 2021 This book is a printed edition of the Special Issue "Current Trajectories in Global Pentecostalism: Culture, Social Engagement, and Change" that was published in *Religions*

Hillsong Church Feb 26 2023 This book highlights the expansion of the influential Pentecostal Hillsong Church global megachurch network from Australia across global cities. Ethnographic research in Amsterdam and New York City shows that global cities harbor nodes in transnational religious networks in which media play a crucial role. By taking a lived religion approach, media is regarded as integral part of everyday practices of interaction, expression and consumption of religion. Key question raised is how processes of mediatization shape, alter and challenge this thriving cosmopolitan expression of Pentecostalism. Current debates in the study of religion are addressed: religious belonging and community in global cities; the interrelation between media technology, religious practices and beliefs; religion, media and social engagement in global cities; media and emerging modes of religious leadership and authority. In this empirical study, pressing societal issues like institutional responses to sexual abuse of children, views on gender roles, misogyny and mediated constructions of femininity are discussed.

Christian Congregational Music Nov 13 2021 Christian Congregational Music explores the role of congregational music in Christian religious experience, examining how musicians and worshippers perform, identify with and experience belief through musical praxis. Contributors from a broad range of fields, including music studies, theology, literature, and cultural anthropology, present interdisciplinary perspectives on a variety of congregational musical styles - from African American gospel music, to evangelical praise and worship music, to Mennonite hymnody - within contemporary Europe and North America. In addressing the themes of performance, identity and experience, the volume explores several topics of interest to a broader humanities and social sciences readership, including the influence of globalization and mass mediation on congregational music style and performance; the use of congregational music to shape multifaceted identities; the role of mass mediated congregational music in shaping transnational communities; and the function of music in embodying and imparting religious belief and knowledge. In demonstrating the complex relationship between 'traditional' and 'contemporary' sounds and local and global identifications within the practice of congregational music, the plurality of approaches represented in this book, as well as the range of musical repertoires explored, aims to serve as a model for future congregational music scholarship.

Singing the Gospel along Scotland's North-East Coast, 1859-2009 Mar 25 2020 Following three years of ethnomusicological fieldwork on the sacred singing traditions of evangelical Christians in North-East Scotland and Northern Isles coastal communities, Frances Wilkins documents and analyses current singing practices in this book by placing them historically and contemporaneously within their respective faith communities. In ascertaining who the singers were and why, when, where, how and what they chose to sing, the study explores a number of related questions. How has sacred singing contributed to the establishment and reinforcement of individual and group identities both in the church and wider community? What is the process by which specific regional repertoires and styles develop? Which organisations and venues have been particularly conducive to the development of sacred singing in the community? How does the subject matter of songs relate to the immediate environment of coastal inhabitants? How and why has gospel singing in coastal communities changed? These questions are answered with comprehensive reference to interview material, fieldnotes, videography and audio field recordings. As one of the first pieces of ethnomusicological research into sacred music performance in Scotland, this ethnography draws important parallels between practices in the North East and elsewhere in the British Isles and across the globe.

Thin Places Aug 30 2020 A Los Angeles Times Bestseller A Lit Hub | Chicago Review | Ms. Magazine March pick A Lambda Literary Most Anticipated Book In this perceptive and provocative essay collection, an award-winning writer shares her personal and reportorial investigation into America's search for meaning When Jordan Kisner was a child, she was saved by Jesus Christ at summer camp, much to the confusion of her nonreligious family. She was, she writes, "just naturally reverent," a fact that didn't change when she—much to her own confusion—lost her faith as a teenager. Not sure why her religious conviction had come or where it had gone, she did what anyone would do: "You go about the great American work of assigning yourself to other gods: yoga, talk radio, neoatheism, CrossFit, cleanses, football, the academy, the American Dream, Beyoncé." A curiosity about the subtle systems guiding contemporary life pervades Kisner's work. Her celebrated essay "Thin Places" (Best American Essays 2016), about an experimental neurosurgery developed to treat severe obsessive-compulsive disorder,

asks how putting the neural touchpoint of the soul on a pacemaker may collide science and psychology with philosophical questions about illness, the limits of the self, and spiritual transformation. How should she understand the appearance of her own obsessive compulsive disorder at the very age she lost her faith? Intellectually curious and emotionally engaging, the essays in *Thin Places* manage to be both intimate and expansive, illuminating an unusual facet of American life, as well as how it reverberates with the author's past and present preoccupations.

In Brian Houston's book, *For This I Was Born*, he says that to know the Cause of Christ is to understand why you were born, to know what you are living for, and to decide what you are prepared to die for. If you do not know the meaning of life, he says, you will never live a life of meaning. Houston desires that each of his readers come to know the cause of Christ. His Cause, he says, is the key that opens us to new places of vision, passion, strength, and reason for living.

Congregational Song in the Worship of the Church Feb 23 2020 This book is a study of how congregational song developed and has been used in the worship of Western churches in general and specifically churches in the United States. Beginning with the worship of ancient peoples, the Hebrews, and early Christians and continuing to the present, the author examines historically how song has been and is used as an intentional sacred ritual action, like prayer or Scripture reading. Written primarily as an introductory text for college and seminary students, the overall goal is to make a historical journey with the people, events, and ideas from which have evolved the various types of song we have in American worship today. To help readers think more deeply about the material, study questions are given at the end of each chapter.
