When author Dr. Weston L. Blair was diagnosed with non-Hodgkin's lymphoma in 2005, he and his wife, Fran, believed the diagnosis was something the Lord was going to use for their good and His glory. Blair, an ordained minister, placed his trust in the Lord. His daily medicine was God's word, and this is his story of healing. "A Cure for Cancer" gives a step-by-step walk through Weston's documented battle with cancer. It narrates his journey from the initial diagnosis of stage II non-Hodgkin's lymphoma through three month's progression to stage IV. Blair recalls good news, then bad news, and then the last tests and visit with Dr. Felipe Samaniego at MD Anderson Cancer Center in Houston, Texas, where Blair was declared cancer-free. This memoir, filled with spiritual teachings and comforting scriptures, provides insights into one man's battle with the fear, pain, and hopelessness of cancer. It shows how he coped on a daily basis and how he found healing through his faith in God's Word. Sometimes a beautiful miracle comes to you at exactly the wrong time... Lindsay Prescott is forty and single when tragedy strikes. Diagnosed with stage 4, Non-Hodgkin's Lymphoma cancer, her instinct is to right the wrongs in her life. Her unfortunate childhood with an alcoholic, verbally abusive mother drove her to break free in desperation at the age of 17. While working at a hotel along the beach on the East Coast, she met Harris Manning. He took her breath away and she gave herself to him in love. Harris' life was already planned out for him by his wealthy parents. Falling for Lindsay had been a dream. However, compelled to wed the woman his parents chose for him, he'd left her to endure a shaky marriage. Though Harris never knew it, Lindsay found herself pregnant when he left her with no way to care for identical triplets on her own. When the triplets were five months old, she reconnected with an Amish couple—Katie and Roman Yoder—who were unable to have children. The Yoders adopted Amy and Jenna while Lindsay kept Phoebe. She couldn't bear to give all three babies away. In the years that followed, Katie worked hard to keep her away from her adopted daughters. When you let go of a miracle, can you ever capture it again? After Harris learns his ex-wife intercepted Lindsay's calls years ago to tell him she was pregnant, he rushes to her side, thrilled to discover he's a father. But life rarely gives fairytale endings. Revealing the truth may prove more devastating than the hurdles that came before...and all that will surely come after for a woman fighting for her life. First in its Lymphoma field. In this heartwarming novel of marriage, motherhood, and forgiveness, three women fight for the chance to raise the child they've all come to love. After

a challenging year of seeing her husband Graham through cancer treatment, lifestyle blogger Lilia Swallow is ready to celebrate his recovery. But just as their festive party gets underway, a mysterious guest presents Lilia with a beautiful baby boy, and vanishes. Toby is Graham's darkest secret—the son he conceived in a moment of despair. Lilia is shocked by Graham's betrayal, but even more surprised by the love she feels for his child. Once abandoned, Toby is now desperately wanted by three women: Lilia, who takes him into her home and heart; Marina, who bore him and now regrets giving him up; and Ellen, who sees in him a chance to correct the mistakes she made with her own son, Toby's father. A custody battle begins, and each would-be mother must examine her heart, confront her choices and weigh her dreams against the fate of one vulnerable little boy. Each woman will redefine family, belonging and love—and the results will alter the course of not only their lives, but also the lives of everyone they care for. For fifty years, Encyclopedia Brown has been the best boy detective on the block and a favorite character for generations of middle-grade readers. Following the classic formula, this installment presents ten mysteries, complete with answers at the end of the book that allow the reader to solve the cases, too. Ten brief cases allow the reader to match wits with ten-year-old crime-buster, Encyclopedia Brown, as he locates stolen jewels, retrieves a stuffed tiger, and more. Solutions are included at the back of the book. Lee Johnson was a man with simple dreams. All he wanted was a steady job and a nice home for his wife and children, something better than the hard life he knew growing up. He never imagined that he would become the face of a David-and-Goliath showdown against one of the world's most powerful corporate giants. But a workplace accident left Lee doused in a toxic chemical and facing a deadly cancer that turned his life upside down. In 2018, the world watched as Lee was thrust to the forefront of one the most dramatic legal battles in recent history. The Monsanto Papers is the inside story of Lee Johnson's landmark lawsuit against Monsanto. For Lee, the case was a race against the clock, with doctors predicting he wouldn't survive long enough to take the witness stand. For the eclectic band of young, ambitious lawyers representing him, it was a matter of professional pride and personal risk, with millions of dollars and hard-earned reputations on the line. For the public at large, the lawsuit presented a question of corporate accountability. With enough money and influence, could a company endanger its customers, hide evidence, manipulate regulators, and get away with it all—for decades? Readers will be astounded by the depth of corruption uncovered, captivated by the shocking twists, and moved by Lee's quiet determination to see justice served. With gripping narrative force that reads like fiction, The Monsanto Papers takes readers behind the scenes of a grueling legal battle, pulling back the curtain on the frailties of the American court system and the lengths to which lawyers will go to fight corporate wrongdoing. You asked for a new edition. Here it is, better than ever! Not only have many of the same experts in hematology and oncology returned to update their chapters, but new specialists have joined the team, rounding out this edition's detailed coverage of cancer treatment, palliative care, blood disorders, genetic counseling, and more. While searching for her late nanny's life story, Salz recovers their intense bond that survived derision and death and unearths secrets kept for nearly fifty years. Elizabeth Hanna, called Miss Hanna, was not of their world, but this was the world that she walked into. Her job was to keep the author fed, dressed, clean and loved. Salz soon learned that her own job was to protect her nanny and herself from the constant, cutting ridicule of her mother. Salz made a vow as a child never to speak of her love for her nanny, "that ugly woman," as her mother called her. When Salz was sixteen, Miss Hanna was diagnosed with Hodgkin's lymphoma; she moved from her tiny bedroom to a Dickensian public nursing home and then a Catholic hospice, where she died. In 2008, a few years after her mother died, Salz broke her vow and began a search for Miss Hanna and the orphan asylum where she had been raised. Generous strangers, the Internet and just plain luck helped Salz discover Miss Hanna's roots and secrets - and she finally understood why her nanny's eyes stayed sad, even when she smiled. The Secret Book of Running is an irreverent training manual for runners of all ability levels, covering everything from the 5K to the marathon. When it comes to the sport of running, it is generally understood that over 99% of all entrants in a competitive race will lose. In non-competitive running, it is generally understood that if a runner finishes their normal route in a slower-than-usual time, they will also feel as if they have lost. The Secret Book of Running is the ultimate irreverent training manual to help runners deal with these feelings of defeat. As funny as it is informational, Martin's guide references common frustrations, observations, and joys that come with the sport. And because of the seemingly constant feeling of failure, his guide to running is also designed to help athletes of all ages and skill levels get the most out of their bodies and improve their performance. Offering myth-busting insights on coaching, nutrition, training methods, and more in an irreverent and approachable style, he speaks the language of runners but with an accent all his own. In fact, the book promotes the Jealousy, Anger, and Resentment (JAR) method of training to access the emotions needed to fuel your performance, run better than ever, and finally beat your competition. Full of insights and actionable tools and tips, this definitive and definitely hilarious guide for runners of every level is unlike any other running book currently available. A necessity for anyone looking to run their first race, their fastest race ever, or just fast enough to beat their competition, The Secret Book of Running acknowledges that runners are often their own worst enemies when it comes to training and racing and uses a great deal of humor along with the research and lessons learned from years of experience to help inspire, educate, and motivate runners of every level to improve.
