River of Teeth Dec 12 2021 A Finalist for the 2017 Nebula Award for Best Novella Sarah Gailey's wildfire debut *River of Teeth* is a rollicking alternate history adventure that Charlie Jane Anders calls "preposterously fun." In the early 20th Century, the United States government concocted a plan to import hippopotamuses into the marshlands of Louisiana to be bred and slaughtered as an alternative meat source. This is true. Other true things about hippos: they are savage, they are fast, and their jaws can snap a man in two. This was a terrible plan. Contained within this volume is an 1890s America that might have been: a bayou overrun by feral hippos and mercenary hippo wranglers from around the globe. It is the story of Winslow Houndstooth and his crew. It is the story of their fortunes. It is the story of his revenge. Mad Cowboy Jun 18 2022 Told by the man who kicked off the infamous lawsuit between Oprah and the cattlemen, Mad Cowboy is an impassioned account of the highly dangerous practices of the cattle and dairy industries. Howard Lyman's testimony on The Oprah Winfrey Show revealed the deadly impact of the livestock industry on our well-being. It not only led to Oprah's declaration that she'd never eat a burger again, it sent shock waves through a concerned and vulnerable public. A fourth-generation Montana rancher, Lyman

investigated the use of chemicals in agriculture after developing a spinal tumor that nearly paralyzed him. Now a vegetarian, he blasts through the propaganda of beef and dairy interests—and the government agencies that protect them—to expose an animal-based diet as the primary cause of cancer, heart disease, and obesity in this country. He warns that the livestock industry is repeating the mistakes that led to Mad Cow disease in England while simultaneously causing serious damage to the environment. Persuasive, straightforward, and full of the down-home good humor and optimism of a son of the soil, Mad Cowboy is both an inspirational story of personal transformation and a convincing call to action for a plant-based diet—for the good of the planet and the health of us all.
